 - Easy tool change

HYPER SANDER 430

Hyper Sander 430 is the new powerful and versatile sander from HG.

The sturdy, compact and intelligent chassis sets a new standard of handling; allows you to complete any sanding operation with ease and unrivaled comfort.

With a simple "click", the "**Frame Block System**" attributes to Hyper Sander 430 the qualities of 2 machines in 1 only:

- **Single brush mode:** Wheels raised and rigid head.
- **Sander mode:** Wheels gronde and floating head.

The compact design makes it transportable in the trunk of a car, making the Hyper Sander 430 a machine also suitable for rental, moreover it can be quickly divided into 2 parts. Hyper Sander 430 is an exceptionally versatile machine, equipped with a high performance 4HP engine. With the available accessories and tools it is suitable for grinding and polishing any surface. Effective on leveling compounds, screeds, concrete, marble and stone or preparation and removal works. the sturdy 3 metal gears reducer allows Hyper Sander 430 to be used also with additional weights of 17kg each, obtaining an optimal sanding pressure in any situation with unparalleled removal. It fully satisfies the needs of parquet laying, it is ideally suited for wood sanding and finishing even flush to the wall. The "**4Drive**" counter-rotating planetary reduces to the minimum the vibrations for the operator and makes the machine extremely balanced and fluid in every process. The vacuum system is designed to minimize the dust generated by dry sanding.

* The machine includes: 4Drive planetary, pad holder ø430mm, 4 velcro pads ø140mm.

TECHNICAL DATA

Model	Motor HP max	Volt	Hertz	Motor Speed rpm	Working width	Tools Dimension	Dimensions LxAxP cm	Weight Kg
HYPER SANDER 430 HD CPL	4 HP	220	50/60	155	430mm	4x140mm	65x135x49	86
HYPER SANDER 430 PLUS CPL	4 HP	220	50/60	155	430mm	4x140mm	65x135x49	--
HYPER SANDER 430 PLUS VS CPL	4 HP	220	50/60	155-250	430mm	4x140mm	65x135x49	--

Compact

Electrical absorption display (optional)

Additional Weights (optional)

PLANETARY 4 D R I V E COUNTER-ROTATING

It is a hardened steel, counter-rotating planetary with "helical gears". Quick and safe connection, without the use of working tools. Multiplies the tool's speed allowing for removal rates and high finishes. Quiet, reliable, precise.

FRAME BLOCK SYSTEM

1. Allows you to set the HYPER SANDER 430 in 2 different working modes:
2. Floating head and grounded wheels mode.
3. Rigid head with raised wheels mode.

The Hyper Sander 430 can use all type of sanding tools and all type of accessories for single disc machines!!

Floating head and grounded wheels mode

Rigid head with raised wheels mode
